Saving the Planet the Fun Way

Sewing Clubs for Children of All Ages

Make: **The Children will be sewing a range of projects all according to their individual ability. Full support will be on hand to help them to achieve their desired outcome. No sewing knowledge is required. Progression will be according to their own interest and ability.**

Do: **The most important attribute to any of the projects is to "Do Your Best". The children will be encouraged to think about their projects and suggest new ideas. It doesn't matter if they have never sewn before.**

Mend: **The children will be allowed to bring in soft toys for mending or simple clothes mending like fixing a seam or sewing on a button.**

Saving the Planet: **All fabric and threads are supplied and are from a recycled source and the children are taught the importance of recycling and upcycling.**
